Dear Friends!

A few weeks ago, we received humanitarian aid from you! Food, Sweets, vitamins, protein, hemostatic agents and other goods donated by you in this difficult time for our country are extremely important, sometimes even vitally necessary.

The sweets, fruits and basic food products donated by you were distributed among the association of children with disabilities "Svitla Nadiya" from among the refugees in the Ivano-Frankivsk region. 216 disabled children found shelter there.

Hemostatic agents, vitamins and proteins were handed over to emergency medicine rescue volunteers in the Mykolayiv region (Southern Ukraine, Yuzhnoukrainsk city). They ensure the evacuation of the wounded from the front line. Your help will find its

Basic food products (beans, lentils, pasta, oil, chickpeas and others) are used by the Field Kitchen of the Maltese Service in Ivano-Frankivsk, where 950 to 1,250 internally displaced persons who were forced to leave their places of residence receive meals daily. Thus, your products will be enough for at least one month of cooking for these poor people. (During the war, our city of Ivano-Frankivsk, with a population of 200,000 people, "accepted" 60,000 refugees.)

As a result of Russian aggression against Ukraine, more than 13 million residents lost their homes, jobs, and found themselves in search of a safe place. Almost 7 million of them have fled to European countries, 6 million are internally displaced in Ukraine, which is already in an extremely difficult economic situation.

After all, Russian troops are destroying civilian infrastructure, destroying industry, and the agricultural sector is suffering terribly. The armed forces of the aggressor are bombing elevators and reserve warehouses, blocking Ukrainian ports, where the stock of grain, corn, sunflower and other products, which is critically important for the world, is stored. Genocide of Ukrainians is being committed in the occupied territories.

We also regularly send aid to the east and south of Ukraine to cities that are directly outside the war line. These are Mykolaiv, Zaporizhzhia, Chernihiv, Kyiv, Kharkiv, Odessa, Dnipro. There, this help is also vitally necessary and there is a critical lack of it.

Attached are a few photos from our logistics center and from crisis locations in Ukraine. Also a short video here:

On behalf of our volunteers, team and the people of Ukraine, we are grateful for your help and look forward to future cooperation!

Kind regards
